

Create More Room to Live and Enjoy with Custom Single Storey Extensions

Is your home feeling a bit snug for your growing needs? A **single-storey extension** could be the perfect solution to add both space and value to your property. Whether you're dreaming of a spacious kitchen, an airy living area, or an extra bedroom, the possibilities are endless with this type of home improvement.

At Prem Built, we specialise in designing and building single-storey extensions in Melbourne that cater perfectly to your lifestyle and budget. Every home is unique, and so is our approach. We work closely with you to craft extensions that blend seamlessly with your home's original design, using premium materials and delivering exceptional craftsmanship.

Adding more living space doesn't just improve your daily life – it's also an investment. A single-storey extension can significantly boost your property's value while allowing you to stay in the neighbourhood you love. It's a cost-effective alternative to the hassle of moving, especially with Melbourne property prices on the rise.

More Than Just Extra Space

Plus, imagine the added benefits – more natural light streaming in, a better connection to your garden, and a functional layout custom-built for your needs. Whether you aim to create a comfortable family space, an inspiring home office, or even a private gym, the choice is yours.

With Prem Built, creating your dream space has never been easier. Take the first step towards transforming your home with a single-storey extension tailored just for you.
